SCALAR LIGHT / READING COLLECTION

INSPIRED BY TOM PALADINO

Scalar Energy for the World

Volume 5

Photographs & Tom Paladino’s Perspective

> Why Tom placed photographs at the centre of his ideas about light and connection.

A revised interpretation of Tom Paladino’s original booklet. His beliefs, his satellite analogy and the practical service are distinguished throughout.

BEFORE YOU BEGIN

A note on this edition

Inspired by Tom Paladino, this booklet revisits his original Scalar Energy for the World, Vol. 5: Scalar Energy and Photographs - How it works. It preserves his central question: why use a photograph in a remote Scalar Light session?

Tom answered through his ideas about signatures, information and a connected universe. This edition describes those ideas as his beliefs and interpretations. Two short direct excerpts preserve his wording; the remaining text is an editorial adaptation, not a statement written or approved by him.

A USEFUL STARTING POINT

A photograph is used in the service process. That fact does not establish Tom’s proposed energy connection, instantaneous transmission or medical effects. Scalar Light is a non-medical wellness service for personal and spiritual exploration, not a substitute for healthcare. [2]

Inside this booklet

A Photograph as a Point of Reference **03**

Broadcasting from the Stars: The Analogy **04**

An Instantaneous Connection? **05**

Tom Paladino & Further Exploration **06**

Sources & Notes on the Adaptation **07**

01 / THE CENTRAL IDEA

A Photograph as a Point of Reference

What a photograph represented in Tom’s framework.

Tom began with an expansive view of scalar energy. He believed it was present throughout the universe and carried information behind physical form. In his account, the Sun and stars were sources of this energy, and every person or object had a distinctive signature.

He extended that idea to photographs, writing:

> “every photograph is a scalar energy signature or harmonic of the person or object photographed.”

Tom Paladino, excerpt from “Preface”, original booklet

This sentence expresses Tom’s interpretation. A photograph can identify or represent its subject, but that does not demonstrate that it carries a measurable scalar signature or a physical connection to the subject.

The fingerprint and DNA comparison

The original compares the proposed signature with a fingerprint or DNA. It is an analogy about uniqueness, not evidence that a photograph contains someone’s DNA or has a medically useful biological signature. [1]

THE DISTINCTION TO KEEP

Using a photograph as the participant’s reference in a session is a service fact. Saying the image allows an instrument to locate and affect that person is an additional claim requiring independent evidence.

02 / A FAMILIAR COMPARISON

Broadcasting from the Stars: The Analogy

How Tom used satellite communication to explain his ideas.

AI-generated artist’s impression of a satellite; not a Scalar Light instrument.

Tom compared his instrument with a satellite: both, in his explanation, could direct something towards an intended recipient. The comparison can clarify his intended meaning, but it does not establish that the two systems operate in the same way.

Comparison	Tom’s proposed account [1]	Satellite communication [3]
Signal	Scalar energy, as described within his framework.	Radio signals using electromagnetic waves.
Connection	A photograph serves as the reference for the person or object.	Engineered radios, antennas and receiving equipment.
Evidence status	The photograph-based energy mechanism is not established by the booklet.	The radio communication system can be measured and tested.

AN ANALOGY HAS LIMITS

The existence of working satellites is not evidence that a photograph receives a remote scalar signal or that Scalar Light produces a health effect.

03 / THE WIDER INTERPRETATION

An Instantaneous Connection?

Tom’s hologram idea and its spiritual meaning.

Concept artwork about an image and its subject; no physical energy link is depicted.

The original’s closing chapter describes all physical forms as part of an “infinite scalar energy hologram”. Tom believed a photograph belonged to that same whole, allowing a connection beyond ordinary time and space. [1]

> “Scalar energy is the direct expression of the Universe, which serves to provide “dominion” over nature.”
>
> Tom Paladino, “An Instantaneous Connection”, original booklet

This is Tom’s spiritual and philosophical language. It should not be read as proof of control over nature, instantaneous communication or a demonstrated way to change a person’s body.

MEANING IS NOT MEASUREMENT

Personal meaning does not establish physical transmission. That claim needs measurable results and independent testing, neither supplied in the original booklet.

04 / THE LEGACY & THE SERVICE

Tom Paladino & Further Exploration

Tom Paladino developed the ideas behind Scalar Light. His original biography describes independent study inspired by Tesla, Hieronymus, Moray and Priore. Photographs became central to his explanation of remote participation.

The current service uses a submitted photograph in remote sessions. No in-person visit or live call is required. Follow the registration and photograph instructions for the selected program, and obtain permission before registering someone else. [2]

A process and a proposed explanation

Those practical steps describe how the service is organised. They do not establish a scalar receiver, a biological response or the pathogen-related effects claimed in the original biography. Personal impressions should not be used to assess health.

A CLEAR HEALTHCARE BOUNDARY

Scalar Light is offered for personal and spiritual exploration. It does not provide medical diagnosis or treatment. Do not use it to decide that infection has cleared, delay medical care or change prescribed treatment.

About Tom Paladino

REFERENCE NOTES

Sources & Notes on the Adaptation

What the references support, and what they do not.

The original booklet is the source for Tom’s perspective. The current FAQ describes participation. NASA’s communications material explains radio systems; it does not validate Scalar Light’s photograph-based mechanism.

1. Original booklet
Tom Paladino, Scalar Energy for the World, Vol. 5: Scalar Energy and Photographs - How it works. Source for the narrative, analogy and two exact excerpts. Read source

2. Current service description
Scalar Light FAQ. Photographs, permission, remote sessions and the distinction between theories and scientific evidence. Read source

3. Satellite communications
NASA, State-of-the-Art Small Spacecraft Technology, “9.0 Communications”. Radios, antennas and electromagnetic signalling. Read source

Quotations and comparison table

The excerpts come from “Preface” and “An Instantaneous Connection”. Their wording is preserved; quotation-mark styling has been standardised. The original comparison has been rebuilt to separate Tom’s proposed mechanism from established radio technology, rather than imply equal scientific validation.

Images & editorial approach

The photographic studio, satellite and coastal photograph scenes are AI-generated editorial illustrations. The satellite is a generic artist’s impression, not an actual mission image. No image demonstrates a scalar connection or medical effect. Tom’s image was supplied for this edition.

The main sequence and central ideas are retained. “How it works” has been replaced in the subtitle to avoid presenting an unverified mechanism as settled fact. Unsupported claims about instant transmission, universal information control and pathogen destruction have been removed or contextualised.

Adapted edition prepared October 2026. Inspired by Tom Paladino; additional prose and explanations are editorial adaptations.
